Experience

Full-Stack Developer Intern Jun 2025
Kites Software Pvt. Ltd. *Hybrid, Kochi*

- Built reusable and responsive **React components** for modular user interfaces
- Developed **4+ RESTful APIs** using Node.js and Express for backend services and data processing
- Designed efficient data models and **MongoDB schemas** for application data management
- Integrated **React frontend with backend APIs** to enable seamless client–server interactions

Open Source Contributor | **[Certificate]** Aug 2025 – Oct 2025
GirlScript Summer of Code (GSSoC) 2025 *Remote*

- Submitted **20+ pull requests** with **15+ merged** and raised **10+ issues** during **GSSoC'25**
- Added **database indexes** on patient and doctor fields to improve query performance (#143)
- Improved frontend UI by fixing layout issues and building reusable components

Skills

Languages: C++, JavaScript, Python
Frontend: React, HTML, CSS
Backend: Node.js, Express.js
Database: MySQL, MongoDB, Redis
Tools & Services: Git, GitHub, Postman, VS Code
Core Concepts: Data Structures & Algorithms, OOP, DBMS, OS, Computer Networks

Education

Cochin University of Science and Technology 2022 – 2026
Bachelor of Technology in Information Technology – CGPA: 8.25

Projects

Event Connect | *React, Node.js, Express, SQL* [Live] | [GitHub]

- Built an **event management platform** enabling event creation, approvals, and participant management
- Integrated **GROQ AI** to auto-generate event descriptions, reducing manual content creation effort
- Optimized **SQL queries** and designed **REST APIs** for efficient event and user data management
- Automated **Resend email workflows** for password resets and event approval notifications, achieving **˜90% delivery success**
- Deployed on **Render** and **Netlify** with **Cloudinary** for scalable media storage

Finance Dashboard | *MERN Stack* [Live] | [GitHub]

- Developed a finance dashboard with **JWT authentication** and secure API access
- Configured **RBAC** for **Viewer, Analyst, and Admin** roles with protected route access
- Built **CRUD operations** for financial records with **filtering, search, and pagination**
- Designed analytics using **MongoDB Aggregation Pipeline** for category-wise income and expense insights
- Implemented user management with **Joi validation** and centralized error handling

Achievements & Certifications

- Solved **300+ coding problems** through practice and **contests** on **LeetCode** and **Codeforces**
- **SQL Certification** by **HackerRank** — Certificate
- **API Fundamentals Student Expert Certification** by **Postman** — Certificate
- **Artificial Intelligence Fundamentals** by **IBM** — Certificate
- Volleyball – **Captain** of College & District Teams
